

<http://www.harris-tarkett.com/>

Since 1898, hardwood flooring products have been produced by our company in Johnson City, TN. The Tarkett brand of quality hardwood flooring continues to be produced by ArborCraft at our new (in 1992) Eddie Williams Rd. plant in Johnson City.

ArborCraft has the ability to manufacture its own engineered wood panels at its 20 acre, 100,000 sq ft facility in Montpelier, IN.

ArborCraft's engineered wood panels are converted to precision flooring products within the 225,000 sq ft of manufacturing space at the Johnson City, TN plant. Our vertically integrated manufacturing approach allows ArborCraft to produce a full range of pre-finished engineered, solid and parquet flooring plus a wide range of complementary molding products. Tarkett hardwood floors are manufactured in a wide range of widths, lengths, species, colors, and textures.

Distinctive, unfinished Bondwood parquet flooring has been produced at the original plant on Maple Street in Johnson City since 1955.

ArborCraft has two main product brands in North America: [Harris Wood](#) and [Tarkett Wood](#) .

ArborCraft is proud to be a full line hardwood flooring manufacturer, American-owned and independent. It is owned by New Stream Capital Investments.
