

<http://www.expanko.com>

Expanko, best known for high quality cork flooring, also offers floating floor, recycled rubber and cork/rubber flooring, as well as other types of cork products. At Expanko we are dedicated to offering innovative, environmentally friendly products which are durable, comfortable and easy to maintain.

Expanko products are not only beautiful and durable but are also easy to install. From time to time we receive pictures from customers of installations they have done themselves by following Expanko's simple instructions. If you have done an installation of your own and would like it displayed on our web site, please send us an email!
