

Our Philosophy

Written by Samuel Leichter

Leichter's Floor Covering is an environmentally conscious floor covering company. To protect the wellbeing of the environment and the health of our customers we offer ecologically sound flooring products and adhesives. We recycle as much of the trash that is created during the process of installing new flooring as possible. We use friendly non-union flooring installers that care about our customers needs. Our installers take the time to ensure that our customers are happy with the installation. We look forward to the opportunity of working with you in the future.

To help get your project started off on the right foot, we would like to offer you a free on site flooring consultation that will be followed up by a free flooring proposal. If you have any questions, please feel free to call or email me.

Sincerely Yours,

□
